August 2023 - September 2023

- Successfully completed a web development internship, gaining hands-on experience in front-end technologies.
- As an intern, I perform all assigned tasks to the best of my ability.
- Implemented modern web development frameworks and libraries, including HTML, CSS and JavaScript.
- Exhibited a strong Commitment to continuous improvement, Actively seeking opportunities to enhance skills and contribute to the growth of organization

PROJECTS

→ Student Grade Predictor:

Language used: Python, ML

By using machine learning algorithms, we can predict how well the students are going to perform so that we can help the students whose grades are predicted low. Student Grades Prediction is based on the problem of regression in machine learning.

→ Music Clone:

Language used: HTML, CSS, JavaScript

Created a music clone web application that replicates key features of popular music streaming platforms like Spotify, wink, Gaana, JioSaavn, etc. offering users a familiar and enjoyable music discovery experience. Employed HTML, CSS, and JavaScript to craft responsive and interactive user interfaces that adapt seamlessly to different screen sizes and devices.

TECHNICAL SKILLS

Languages: Proficient -> Python, HTML, CSS, JavaScript

Familiar with -> C, Machine Learning, Data Science

Other: Stock Market.

CERTIFICATIONS

- Programming with Python part-1,2 (**INFOSYS Springboard**)
- Data Science with python.
- Introduction to MS Excel.
- Basics of Financial markets.
- Web development with **CodSoft (Internship)**

SKILLS

- Good leadership qualities.
- Very good in teamwork.
- Proficient in english.
- Beginner in Stock market Trading.
